

# Fågel Roc – Production & Distribution – Press release

In the wake of the Financial Crisis there have been bankruptcies, amongst them the company that distributed Roc's Records.

The very same day as Fågel Roc's new remix album "Dance & Dream" was released, the original record "Body & Soul" vanished.

A Bird has to do what a Bird has to do.

From April 2009 Fågel Roc is not just a Band from all over the world, but also a record company and distribution company, all over the world. With total control over art & economy, from the first note to the final product.

The next step would be the Bird perching on your armrest, singing gently into your ear, or dancing with you in your living room, which would be nice.

Fågel Roc is for the time being in the studio recording film music, and album no. 3 to be released in the fall of 09.

Other upcoming releases are the Swedish DJ & Remix duo "Legobeat".
